ABDULRAHMAN AL-SODANY

DevOps Engineer

abdulrahmanabdalla88@gmail.com | +20 102 209 5896 | Cairo ,Egypt | Linkedin | Github

PROFESSIONAL SUMMARY

Highly motivated Junior DevOps & Cloud Engineer with a degree in Communications and Electronics Engineering. Hands-on experience in Linux administration, containerization Docker, web servers NGINX, version control Git/GitHub, and GCP, AWS cloud infrastructure. Skilled in scripting with Bash and Python to automate deployments and streamline operations. Passionate about building scalable, reliable, and automated infrastructure in a dynamic tech environment.

EDUCATION

Delta Higher Institute for Engineering & Technology 10/2021 – 10/2026 | Mansoura, Egypt
Bachelor's Degree in Communications & Electronics Engineering
GPA: 3.01 - Graduation Project Grade : Excellent

INTERNSHIPS

National Telecommunication Institute (NTI) 10/2026 – Present | New Capital, Egypt
Cloud DevOps Engineer Trainee
- Administered Linux environments and automated infrastructure tasks using Bash and Python scripting.
- Built and deployed containerized applications using Docker and orchestrated services with Kubernetes.
- Provisioned AWS using Terraform and implemented CI/CD pipelines for automated workflows.
- Enhanced teamwork, agile problem-solving, and technical presentation skills through collaborative hands-on projects.

Soft Forte, *Junior DevOps Engineer* 09/2025 – 01/2026 | Cairo, Egypt
- Configured Linux and NGINX servers, automating administrative tasks using Bash and Python scripts.
- Applied Docker for portable containerized deployments and managed source code using Git/GitHub for team collaboration.

Telecom Egypt (WE), *Junior Network Engineer* 07/2024 – 09/2024 | Mansoura, Egypt
- Designed and simulated network topologies using Cisco Packet Tracer and CCNA concepts.
- Configured routing, switching, basic network security, and worked with Linux command-line tools.

SKILLS

Soft Skills
Intensive Workplace Skills & Business Communication Program, National Telecommunication Institute (NTI)
- **Project Management:** Scope, Schedule, Cost, and Risk Management; Project Monitoring and Controlling.
- **Teamwork & Leadership:** Team Building, Cross-Functional Collaboration, Role Clarity, Conflict Resolution, Mediation, and Negotiation.
- **Analytical & Personal Effectiveness:** Critical Thinking, Structured Decision-Making, Creative Problem Solving, Adaptability, Resilience, and Time & Stress Management.
- **Business Communication:** Business Proposal & Action Plan Writing, Technical Presentation Skills, Meeting Minutes Documentation, Email Etiquette, and Managing Upwards.

Technical Skills
- **Cloud Infrastructure & IaC:** Google Cloud Platform (GCP), Amazon Web Services (AWS), Terraform
- **Containers & Orchestration:** Docker, Kubernetes, Helm
- **CI/CD & Automation:** Jenkins, Bash, Python
- **Operating Systems & Web Servers:** Linux (Ubuntu, Debian, Red Hat), NGINX, VMware, WSL
- **Version Control:** Git, GitHub
- **Networking & Security:** CCNA Fundamentals, Routing, Switching, Network Security & Protocols
- **Programming Languages:** Python, JavaScript, PHP, HTML/CSS
- **Monitoring & Observability:** Prometheus, Grafana

LANGUAGES

English (B1) | **Arabic** (Native)

CERTIFICATIONS

CCNA: Cisco Networking Academy Aug 2025

Fundamentals of DevOps: KodeKloud Aug 2025

Shell Scripts for Beginners: KodeKloud Aug 2025

Linux Basics Course & Labs: KodeKloud Oct 2024

SELECTED PROJECTS

Ghaymah SRE Technical Assessment , *Cloud Infrastructure & Reliability Engineering* 08/2026
- Architected end-to-end SRE solutions covering cloud resource sizing, scalability, and system monitoring.
- Implemented automated CI/CD pipelines, containerized deployments, and robust post-mortem reliability frameworks.

Limix - IoT Smart Aquaculture Platform , *Python • Flask • Docker • Firebase • IOT* 11/2025 – 05/2026
Grade : Excellent
- Developed backend services and containerized application components using Docker.
- Built cloud-connected data pipelines for real-time telemetry handling with Firebase.

WarshaTech - Industrial B2B Marketplace , *GCP • APIs • Cloud Deployment* 12/2025
Built and integrated backend APIs and managed end-to-end deployment on Google Cloud Platform.

EXTRA CURRICULAR ACTIVITIES

iHOW Community , *Technical Mentor & Instructor* 10/2022 – 06/2026 | Mansoura, Egypt
- Mentored students in technical hackathons and competitions focused on Embedded Systems and technology solutions.
- Conducted practical workshops and training sessions to support students' technical growth and project development.

Honors & Achievements
- 1st Place Winner – DevFest Egypt Hackathon 2024 | GDG Mansoura
  Built "**Sky Config Platform**", an AI-driven cloud brokerage platform featuring an intelligent chatbot to match SMBs with optimal global cloud providers.
- Top 10 Place - DevFest Mansoura Hackathon 2023 | GDG Mansoura

PERSONAL INFORMATION

Date of Birth - 10/10/2003
Military Status - Exempted
Nationality - Egyptian
